

SEED CERTIFICATION OVERVIEW

CALIFORNIA CROP IMPROVEMENT ASSOCIATION (CCIA) AND AG. COMMISSIONER PARTNERSHIP

The CCIA and Ag. Com. offices collaborate on the following programs:

- Seed Certification
 - California Code of Regulations, Section 3875
- Identity Preserved
- Quality Assurance
- Crop Isolation Mapping
- Potato Certification
- Organization for Economic Cooperation and Development (OECD) Certification

CERTIFICATION TRAIL

Seed certification is a multi-step process involving the cooperation of Agricultural Commissioner offices.

1. Applications are submitted by seed companies/growers.

3. Field Inspection Reports are issued by the CCIA.

Certification numbers below, assigned for acres passed, are to be used to identify the seed tested and must be stenciled on all containers of seed from the corresponding fields. Field inspection is only a preliminary step in the process of certification which shall be determined by tests of specially drawn samples of seed. Before harvest, the county agricultural commissioner must be notified for supervision of harvesting, cleaning, and any intercounty movement of this seed.

Results below are for your 2015 Alfalfa field located in FRESNO county county.

SEED TRANSFER CERTIFICATES

Seed Transfer Certificates are used for the movement of untagged seed between states, countries, counties, and within counties.

Please note:

- Inter-agency (state) transfers can be used to ship seed to any AOSCA member agency outside of California, including members outside of the United States. Click [here](#) to view a **list of member agencies**.
- Inter-county transfers are movement of seed between different counties within the state of California.
- Intra-county transfers are movement of seed within a given county of California.
